

Mobile plant asset management

Field Xpert SMT70 & FieldPort SFP50: The perfect bundle

Your benefits

- One single Windows 10 based tablet and one interface to configure HART, PROFIBUS PA and FOUNDATION Fieldbus devices
- No training needed: Intuitive operation via its touch-optimised user interface
- No need to search, download and install drivers: Automatic update of up to 3000 device drivers across all manufacturers
- Do not lose time: Device configuration reports uploaded to Netilion automatically
- Faster commissioning and NAMUR NE 107 diagnosis with 'one-click' automatic connectivity

Field Xpert SMT70

Fieldport SFP50

Field Xpert SMT70

- Configuration tablet suitable for non-Ex and Ex zone 2 areas
- Supporting communication protocols such as HART, PROFIBUS PA, FOUNDATION Fieldbus, wireless and bluetooth etc.
- Out-of-the-box configuration of Endress+Hauser and third-party field instruments

FieldPort SFP50

- USB and Bluetooth communication interface to configure HART, PROFIBUS PA and FOUNDATION Fieldbus devices
- IECEx and ATEX approval for Zone 1
- Suitable for connection to intrinsically safe circuits
- Robust design for harsh environments
